Dear Mr.Noe,

Wish to thank you for your courtesy and the time you spent looking up my coins. You have a delightful place there and I look forward to the time when I may be permitted to make a more thorough inspection. Can appreciate to some slight extent the pleasure you must have in your work.

As a curiosity,not only from the humorous aspect but from the view point of a philosophical text, I wonder if I could obtain one of those " necessary-to-censor" coins. I would like one in good enough condition so that it would leave nothing to the imagination ! In other words,would obviate the necessity of an explanation. If you know of one at a reasonable price - or hear of one later, wont you advise me?

With kindest personal regards,

Yours sincerely,
W.H.McNair
